Welcome

Bringing a new puppy home is exciting... but potty training can feel stressful.

If your puppy is having accidents, don't worry — this is completely normal.

This guide will show you exactly what to do, step by step, in a simple and practical way.

👉 Follow it daily, and you will see real results.

How to Use This Manual

- ✓ Follow the steps in order
- ✓ Stick to the daily routine
- ✓ Don't skip potty breaks
- ✓ Be patient and consistent

👉 This is not just a guide — it's a daily system.

4 Rules for Fast Success

- ✓ Use the same potty spot every time
- ✓ Use the same command: "Go potty."
- ✓ Reward immediately after success
- ✓ Never punish accidents

👉 Follow these rules, and training becomes easy.

YOUR PUPPY'S DAILY ROUTINE

Morning → Potty

After Meals → Potty

After Play → Potty

Every 2 Hours → Potty

Before Sleep → Potty

👉 Simple routine = fast results

MORNING ROUTINE (FIRST 30 MINUTES)

Wake Up

Go Outside

Get a Treat

Step 1: Wake up → Take puppy outside immediately

Step 2: Go to the potty spot

Step 3: Say "Go potty."

Step 4: Wait 3-5 minutes

✓ If puppy goes → Praise + treat

✓ If not → Try again after 15 minutes

After Every Meal

☞ Take your puppy outside within
5-10 minutes after eating

Why?

Because puppies usually poop after meals.

- ✓ Same spot
- ✓ Same command
- ✓ Reward success

The 2-Hour Rule

Take your puppy outside every 2 hours.

👉 Even if they don't show signs

This prevents accidents before they happen.

💡 Tip: Set a timer on your phone

Signs Your Puppy Needs to Go

Watch closely for:

- Sniffing the ground
- Walking in circles
- Suddenly stopping play
- Going to a corner
- 🐾 Act immediately – take them outside

When Accidents Happen

If you catch them:

- ✓ Say "No" calmly
- ✓ Take them outside immediately

If you find it later:

- ✓ Clean it
- ✓ Stay calm
- ✗ Don't punish
- ✗ Don't shout

CONTROL THE SPACE

Limit Your Puppy's Freedom

Don't let your puppy roam everywhere.

- ✓ Use a small room
- ✓ Use a crate
- ✓ Use a playpen

CRATE TRAINING

Using a Crate (Optional)

Dogs don't like to pee where they sleep.

Use a crate when:

You are busy

At night

👉 Always take puppy outside after crate time

NIGHT ROUTINE

Night Routine

Before sleep:

- ✓ Take puppy outside
- ✓ Wait for potty
- ✓ Reward

For young puppies:

- 👉 Wake up every 3-4 hours for potty

7-DAY PLAN

- Your 7-Day Progress Plan
- Day 1–2: Strict routine
- Day 3–4: Fewer accidents
- Day 5–6: Puppy understands
- Day 7: Increase gap to 3 hours
- 🐾 Stay consistent every day

COMMON MISTAKES

Avoid These Mistakes

- ✗ Skipping potty breaks
- ✗ Not rewarding
- ✗ Giving too much freedom
- ✗ Getting angry
- 👉 These slow down training

DAILY CHECKLIST

Daily Checklist ✓

✓ Morning potty

✓ After meals

✓ After play

✓ Every 2 hours

✓ Before sleep

👉 Follow this daily for best results

FINAL MESSAGE

You've Got This 💪

Potty training takes time, but it works.

Stay consistent. Stay patient.

👉 Your puppy is learning from you every day.
